Company Profile

We Wish to Introduce Ourselves as leading aluminium Façade Engineering Consultant in North India. Our firm has been in the business of providing Design and execution consultancy for Aluminium Structural Glazing, curtain walls, spider glazing, Aluminium Composite panel cladding and Aluminium Glazing, Doors and windows for commercial, residential buildings and shopping malls. Company values

Quality

WE are committed to provide high standards of quality in the designing / execution of our projects. We strictly comply with the architects and projects specification.

Synergy

Teamwork is an essence for an organizations success. We at ADI, attach a lot of importance to teamwork for the synchronization of efforts for the effective accomplishment of the desired outcome. for this, we maintain and sustain a network of relationships within the organization in as well as outside the organization that is in the form of client-architect & project management people at site.

“Synergy is the highest activity in life , it creates new untapped alternatives, it values & exploits the mental, emotional & psychological differences between people” stephen covey

Value engineering

Value engineering is an integral domain of a project execution. it reaps benefits for everyone. the benefits of reduction in any kind of futile cost extend not only to a single enterprise but to the nation as a whole. The process of our value addition begins at the grassroots' level that is from the time we receive the tender.

Adherence to timely completion

Time is the only item in a project that cannot be bought from the supermarket. Timely completion is essence in project execution. our highly qualified and experienced personnel impeccably completes the projects well on time. there is strict observance of time schedules as equipped by our planning team along with taking in account the time frame given by our valuable clients.

Finesse

We believe in giving our best to our clients. with our motto of meaningful value addition to our clients & for all our projects. our team meticulously implements our project plans and provides totally customized services aiming at complete client satisfaction. Our skilfulness is depicted in each and every tasks and subtasks undertaken by our employees from costing and drawings to the ultimate installation at site.
